Mustafa GURSOY has been working in Yildiz Technical University (YTU) since 1993. His main study areas are focusing mostly on transportation economics, transportation operations and management, and transportation planning. Along with his academic and teaching works he also gives private sector companies numerous consultancy (more than twenty firms) services during his carrier. He is also a regular academic peer reviewer for "the Journal of Scientific Research and Essays" (more than thirty journal articles peer reviewed). He served as the president of the Office of Constructions and Technical Works of YTU between June 2016 and February 2017. He also served as the director of Transportation Research Center of the YTU for 13 years (between 2007 and 2020) and also gives his professional services briefly at the İstanbul Metropolitan Municipality as the Director of the Transportation Department between the 2019 and 2020.

As an academic he is offering Highway Engineering, Railway Engineering, Railway Design, Urban Public Transportation Systems, Public Transportation Transfer Center Design courses at the undergraduate level and at graduate level he is offering Transportation Economics and Transportation Operations courses. He also supervised sixteen master of science thesis and one doctoral thesis (as co-supervisor), besides he participated nine academic research projects funded by different public or private institutions as either researcher or manager.

Education and Degrees:

Degree	Department/Program	University	Year
Bachelor of Engineering	Civil Engineering	Yildiz University	1992
Master of Science	Civil Engineering/Transportation	Yildiz Technical University	1995
Doctor of Philosophy	Civil Engineering/Transportation	Yildiz Technical University	2003
Associate Professorship	Engineering/Civil Engineering	Inter University Board	2011

Master of Science Thesis:

"Fleet Sizing at Transportation Systems", June 1995, Yildiz Technical University Graduate School of Natural and Applied Sciences, Supervisor: Prof. Dr. Aydın EREL

Doctoral Thesis:

"A Decision Supportive Model for the Determination of Boundaries and/or Volumes of Multimodal Shipments for Our Countries' Freight Transportation", May 2003, Yildiz Technical University Graduate School of Natural and Applied Sciences, Supervisor: Prof. Dr. Zerrin BAYRAKDAR

Academic Positions:

Position Held	Instution	Years
Teaching and Research Assistant	YTU Civil Engineering Department	1993-2004
Lecturer (Ph. D.)	YTU Civil Engineering Department	2004-2010
Assistant Professor	YTU Civil Engineering Department	2010-2011
Associate Professor	YTU Civil Engineering Department	2011-Today
