

Introduction to Electrical Engineering Term project (30%):

Every student team will interview an electrical or electrical-electronic engineer about electrical engineering **as a team**. The engineer may be employed or retired. **Several questions** that reflect your interest and curiosity about electrical engineering practices, devices, equipment, and experiences should be determined together by team members.

Part 1:

Questions and answers of the interview should be written in English as a team. The interview should be written using Word in 12 punto and must have a cover page including required information like team members' names, dates, etc.

The interview will be uploaded to **online.yildiz.edu.tr**.

Please note that only one student in each team uploads the interview.

Due date: December 12, 2024

Part 2:

The oral presentation of the interview by all team members will not exceed 15 minutes. The presentation schedule starts on December 12, 2024.

Presentations should be uploaded to **online.yildiz.edu.tr**.

Please, only one student in each team uploads the presentation.

Due date: January 9, 2025.

Good luck.

Dr. Said Mirza TERCAN
