Instructions for MAT2092 Algebra 2 Final Exam

There will be 5 main questions (may include some sub-questions) covering all topics throughout the course. Questions will be shared via onlinekampus at the exam time. Your total time will be probably 100 minutes including loading time to the system. Final exam scores will contribute %70 to the final grade.

The simple rules for the exam are:

1. You must show **ALL** the details of your work to get full credit. Correct answers with no detail will get zero credit.
2. You may freely use any theorems that we have discussed in class, but you should make it clear where you are using a previous result and which result you are using.
3. Unless you prove them, you cannot use any results from any resources that we have not yet covered.
4. You are **NOT** allowed to consult external sources when working on the exam. This includes your classmates, other textbooks and online resources.
5. You are **NOT** allowed to copy someone else's work.
6. You are **NOT** allowed to let someone else copy your work.
7. You are **NOT** allowed to discuss the problems with each other and critique each other's work.

We expect your solutions to be well-written, neat, and organized.

REMEMBER! Cheating is not allowed and action will be taken. For details see the following : <https://www.mevzuat.gov.tr>

You must sign each page of your solutions and write your student ID, name-surname. Please do practice the followings before the exam: Scan the papers, save them as a single PDF file (zip it if necessary), the file must not exceed 10 MB. Rename it as "your student ID-name surname".

Good luck!
